### **Disposal of Sharps Bins**

Due to recent changes implemented by our Integrated Care Board, our new clinical waste provider will no longer collect patients' sharps bins from the practice.

Unfortunately, this decision is outside of our control. Patients are now advised to arrange sharps bin collections directly through their local authority.

You can do this by visiting [www.suffolk.gov.uk](http://www.suffolk.gov.uk) to organise a collection.

We apologise for any inconvenience caused. If you need further support, please speak to a member of our team.

Thanks
