

# Who We Are and What We Do

## Your PPG Needs You

The role of the Combs Ford Surgery Patient Participation Group (PPG) is to bring together patients, doctors and other members of the Practice Management Team to work in partnership, in order to promote the wellbeing of patients and support the Practice in providing a high quality of service and care.

The PPG is independent of the Practice and is run by the Patient Members. We meet with representatives from the Practice Management Team four times a year at the Surgery, for approximately one hour in the evening.

We are not a forum for complaints, which should be directed to the Practice Management Team, but we do bring forward suggestions for ways to improve the service to patients.

**The PPG has 10 Patient Members,  
and we currently have two vacancies.**
